Maintenance

Both new and used gloves should be inspected to ensure no damage is present prior to use. A light gentle wash up to 3 washing cycles with mild detergent without involvement of any sort of bleaching agents. No tumble drying, just line dry at low temperature up to 30 degree Celsius.

Storage

Gloves should be ideally stored in cool, dry conditions away from excessive heat and in its original packaging.

Disposal

Used protective gloves can be contaminated or infected with harmful substances. Dispose of the gloves as instructed by your local authority.
